

Beyond the Data: One Year on

A series of reflection events to mark one year since the publication of 'Beyond the Data: Understanding the impact of COVID-19 on Black, Asian and Minority Ethnic groups'

London health and care system partners are hosting a series of community centred focus groups to reflect on the one-year anniversary of the publication of the Beyond the Data report.

These forums will support open discussion about the disparities in health outcomes facing London's diverse communities, and what is being done to address them.

We want to hear feedback and experiences from those communities affected by health inequalities, as well as partners and stakeholders who are working to help address them, to help inform our work going forward.

To register for one of these online events, email London.HEST@phe.gov.uk

Please provide the following: name, if you are attending as an individual or representing an organisation or community group, and access requirements.
