

# Virtual public meeting

## PARADOC

**Monday, 2nd August**

**5.30pm – 7.00pm**

**All welcome**

This City & Hackney service provides rapid assessment and treatment for acutely unwell patients who would otherwise be admitted to A&E or a hospital ward. The focus is on the elderly, frail and complex patients. It also runs a morning falls service for people who have fallen and maybe laying on the floor. ParaDoc comprises a GP with a Paramedic and involves local rapid responses with/Falls/Nursing/Palliative teams; Physiotherapists; Occupational therapists; Geriatricians and Social Services to help people manage better at home.

**with Dr Douglas Green,  
GP Clinical Lead**
